

RESD

RESOURCE ECONOMICS AND SUSTAINABLE DEVELOPMENT (RESD)

Resource Economics and Sustainable Development (RESD) is a two-year master degree that offers excellent preparation in applied environmental economics.

Students will have a critical understanding of complex interactions and interdependencies between economic decisions, market forces, governmental policies and the environment. Built on a solid foundation in applied economics, this preparation will distinguish RESD graduates for their ability to critically evaluate the qualitative and quantitative implications of environmental policies and to autonomously produce research, forecasts and plans concerning the evolution of markets for natural resources and to contribute to the design, production and marketing of products compatible with the consumption of natural resources and their sustainability.

RESD shares UN SDGs in its mission and teaching.

RESD

SECOND CYCLE DEGREE/MASTER UNIVERSITY OF BOLOGNA

Career opportunities

RESD graduates, who are able to employ tools and standard methods in economics and management to environmental and resources related issues can be involved in the following fields:

- Waste management
- Corporate Social Responsibility
- Environmental protection/natural resource economics
- Environmental and eco-innovation consulting
- Project management/Strategic planning specialist/Urban economist
- Food and agricultural economics
- Energy
- Climate Change

International

- RESD classes are entirely taught in English, by UNIBO and international professors.
- RESD has signed an agreement with the Master of Arts in International Affairs (MAIA) of Johns Hopkins University-School of Advanced international Studies (SAIS) in Bologna.
- RESD strongly advises students to apply for mobility exchange programmes like Overseas and Erasmus+, for a period from three to twelve months.

Scholarships and financial aid

International students can apply for:

- Study grants Unibo Action 2 (a study grant worth 11.000 € gross assigned on the basis of the SAT and GRE tests)

RESD programme offers:

- Awards for the best 1st and 2nd year students and or thesis abroad

- Grants for an internship abroad and for an international conference participation
- Additional scholarships offered by the School of Economics, Management and Statistics
- Erasmus+ and OVERSEAS grants

Admission Requirements

Candidates shall possess:

- 1st cycle degree or equivalent Bachelor qualification valid for the admission to Italian Universities;
- knowledge of fundamental elements in business, economics, law and mathematical-statistical disciplines;
- English language certificate (level B2 CEFR).
- reference letter

Admission is conditional on the assessment by an appointed commission, which will evaluate the applicants on the basis of academic merit (bachelor qualification and/or transcript of records); curriculum vitae; motivation letter; reference letter.

For Non-EU citizens, an annual quota of places is set each year, (upon conditions stated by the Ministry of Foreign Affairs, i.e. pre-enrollment at the Italian embassy).
